The Middle East's Largest Mining Exhibition

Oman Market Facts

- Oman is the second largest country after Saudi Arabia in the GCC region with an excellent geology of minerals.
- Oman is home to sizeable deposits of limestone, marble and other carbonate-based minerals.
- Oman is the first producer and exporter of ferrochrome in the GCC region.
- Oman is seen to become the largest gypsum exporter in the world, with gypsum ore reserves are estimated at more than 1 billion tons.
- Oman's manganese deposits are estimated at between 1.5 million and 2 million tons.
- New mining laws and the national mining strategy, coming into effect in 2018, are set to drive sector growth into the next decade.
