QUALITY • SAFETY • RELIABILITY

# MORE POWER. LESS FUEL.

**ASK**  
DOES IT HAVE DYNAVIS?

**JUST BY CHANGING  
YOUR HYDRAULIC FLUID**

**CASE STUDY: Mining excavator in Ranchi, India**

## Triple-down on Coal Mining Efficiency!

Near Ranchi, India, hydraulic excavators mine for coal and roofing slate – but with a critical difference. The conventional hydraulic fluid normally used in the excavators was removed and replaced with a DYNAVIS®-formulated hydraulic fluid.

The impact of the new fluid was carefully recorded. The highest testing standards, with numerous sensors, flow meters and measuring devices were maintained. More earth was moved, faster loading cycles were achieved and dump trucks were filled faster – just by changing the hydraulic fluid.

Learn more and calculate your own fuel savings with easy to use tools at [dynavis.com](http://dynavis.com)

Over 400,000 tons of earth moved – with the following results:

- **Fuel Efficiency in l/t went up 12.8%**  
With a confidence interval of >90% (p-value 92.8%)
- **Time Efficiency in minutes/trip improved 11.8%**  
With a confidence interval of >85% (p-value 88.9%)
- **Trip Efficiency in liters of fuel/trip increased 10.6%**  
With a confidence interval of >85% (p-value 86.2%)

**Dynavis**  
More Power • Less Fuel

DYNAVIS® is a brand of Evoxik or one of its subsidiaries.

Sustainable Development of Mineral Resources

7-8 April 2018 : Khajuraho

Organised by  
The Indian Mining & Engineering Journal

Key Note Speaker  
**Shri Ranjan Sahai**  
Controller General,  
Indian Bureau of Mines

The Khajuraho temple complex,  
a designated UNESCO World Heritage site,  
is a series of beautifully built structures

For further details please contact

**THE INDIAN MINING & ENGINEERING JOURNAL**  
Incorporating Mineral Markets

Edited by S.K. Mahanta and Published by Mrs. Pradhan Anita of IME Publication at Laxmisagarpatna, Bhubaneswar - 6 & Printed at Sri Guru Gouranga Press Trust, IRC Village, Nayapalli, Bhubaneswar - 15

**57 YEARS  
1961-2018**

## THE INDIAN MINING & ENGINEERING JOURNAL

(INCORPORATING MINERAL MARKETS)

VOLUME - 57 NO. 03 (MONTHLY)    36 pages    7th MARCH 2018

Annual Subscription Rs.550/-  
Unit price: Rs.50/-  
ISSN 0019-5944

UGC Approved list of Journals No. 20912

### Mining Technology for Safety

ACCURATELY MEASURE THE QUALITY OF EXPLOSIVES AND ACCESSORIES  
WITH UTTAM BLASTECH'S VELOCITY OF DETONATION (VOD) METER

**KEY FEATURES OF UTTAM'S VOD METER**

- **Release of Seminar Volume and Inaugural Function in Progress**
- Delay timer precisely measures the delay time up to a microsecond
- Continuity of detonation of explosives & accessories are exactly measured with our VOD meter
- Our portable VOD meter measures VOD of an explosive cartridge or detonating fuse.
- Uttam's VOD meter comes with an IP65 for protection against dust and water
- Our portable VOD meter measures VOD of an explosive cartridge or detonating fuse.
- Uttam's VOD meter has an easily readable graphic display & calibration reminders.
- Uttam Blastech's VOD Meter is developed by some of the most experienced minds with over 100 years of accumulated industry experience.

To Purchase VOD Meter or to Avail Our Door-step Services,  
Call us now +91 9490163103

Your one stop solution for all mining and excavation needs:  
**UTTAM BLASTECH Pvt. Ltd.**  
# 2-2-1137/3/1/C/1, New Nallakunta, Hyderabad - 500 044, Telangana, India.
